

2.2 Create Shortcut to Device Manager on Desktop

The Windows Device manager is a useful tool in determining device installation problems. It is suggested that a shortcut to the device manager be placed on the Windows desktop. To place the shortcut, click on the Windows Start button. Select All Programs. Select Accessories. Select and Open Windows Explorer. Navigate to C:\Windows\system32 and find devmgmt.msc. Right-click on the file, select Send to -> Desktop (create shortcut). Once the file is on the Windows Desktop, right click on the Icon and select Rename. Rename this shortcut to Device Manager.

FIG: 2.2.1 Device Manager Icon and renamed Icon

Double click on the Device Manager Icon to open the Device Manager. Scroll down the list to Universal Serial Bus Controllers and click the + sign beside it to expand and see what Universal Serial Bus Devices are installed.

FIG: 2.2.2 Device Manager Path

Typical devices installed for Scientific Data Systems configurations include:

SafeNet Inc. Hardlock Key	Warrior software key
SafeNet Inc. USB Key	Warrior software key
Scientific Data Systems CyStdFX1	USB44 Board
Scientific Data Systems LOGFX-DSP	DSP

Other Devices that also may be seen depending upon the system and peripherals:

Scientific Data Systems CYSTD	Upgrade Panel UPUSB DAC
Scientific Data Systems CYSIM	Simulator Box
Scientific Data Systems CyShPnlFX1	Shooting Panel USBAUX
Scientific Data Systems CyAuxFX1	USBAUX
Scientific Data Systems CyPipFX1	Pulse Interface Panel
